RE: Damaged Freight Policy
DATE: January 1, 2026

The LTL freight sector is going thru significant changes. Lack of capacity and an overall increase in freight volume has created the perfect storm for late and damaged LTL shipments. Due to the significant increase in the incidents of damaged freight arriving to our customers, we want to make you aware of our Damaged Freight Policy.

In order to receive credit from SEK-Trident for damaged product, the guidelines below MUST be followed.

Please review this policy with your receiving staff so they are aware of the policy and know what to do should a shipment from SEK-Trident arrive damaged.

Guideline 1: SEK-TRIDENT Product Arrives With Minor Visible Damage

Immediately request that the driver notates the damage on bill of lading (BOL), citing that the shipment was received damaged. Include specific information regarding the type of damage and the amount of product affected. If possible, take photos of the freight as received and of the damaged product. Scan and email a copy of the BOL and photos to orders@tridentprotects.com. Keep a copy of the BOL for your file.
All requests for credit must include a copy of the BOL noting the damage and must be received by SEK-Trident within 2 business days to receive credit.

Guideline 2: SEK-TRIDENT Product Arrives With Substantial Visible Damage

If the damage is substantial, you have the right to refuse the shipment (noting the extent of damage on the BOL.) Mark the BOL “Freight Refused-Damaged”. If possible, take photos of the freight as is on the truck and specifically of the damaged product. If you decide to refuse freight, do not unload freight from truck. Scan and email a copy of BOL and photos to orders@tridentprotects.com within 2 business days. As soon as we learn the freight has been refused, our office will contact you to arrange for a replacement shipment to be sent.

Guideline 3: SEK-TRIDENT Product Arrives Damaged But the Extent Is Unknown and Requires Further Inspection

If damage is visible at the time the shipment is received but cannot be seen in its entirety without further inspection, mark the BOL ‘Freight Received Damaged-Subject to Further Inspection”. Notify, SEK- Trident within 2 business days that you have damaged freight. You will then have 5 business days to inspect and report the extent of the damage (amount of product affected and type of damage) to SEK-Trident in order to receive credit. Scan and email a copy of BOL and photos to orders@tridentprotects.com
SEK-Trident is doing all that we can to help minimize the potential for damaged freight. We hope that the above explanation helps clarify the process of getting credit for any product you receive that is damaged.

If you have questions, please contact your Sales Representative or our Order Processing Department.

Thank you!
